His quest for a presuppositionless philosophy now seems an example of what Hans-Georg Gadamer – calls "the fundamental prejudice of the enlightenment," namely, "the prejudice against prejudice itself, which deprives tradition of its power" For Poulet – the mystery of reading is that the barriers ordinarily dividing selves are overcome: Is the noema an aspect of the object intended, or rather a medium of intention? In Bayne and Montague eds. Ingarden has been extremely influential in the development of phenomenological reader-response theories, but his views have also been subjected to extensive criticisms and revisions, particularly by Wolfgang Iser b. Academic Tools How to cite this entry. In Phenomenology of Perception Merleau-Ponty developed a rich variety of phenomenology emphasizing the role of the body in human experience. In a successful work, Ingarden argues, the strata combined to form a unified whole is that discipline?
