It is used for discussing the negative repercussions of the plan, the potential dangers, and any criticism on the logic of arguments made in its support. You can use Six Thinking Hats in meetings or on The Blue Hat System. By organizing the thinking process using the metaphor of the six hats, stakeholders can ensure that thinking process is covering the topic from different approaches and point of views. These are sequences of hats which encompass and structure the thinking process. Creative tools can be applied to drive creativity during the conversations such as the Lego Serious Play and brainstorming techniques. Also, programs are often "emergent", which is to say that the group might plan the first The Blue Hat System hats then the facilitator will see what seems to be the right way to go. The Six Hats method is a way for making a comprehensive analysis of a subject. The Six Thinking Hats method could then be used in a sequence to first explore and then discuss the negative repercussions of the plan, the potential dangers, and any criticism on the logic of arguments made in its support.
