If teens are lonely, parents may wish to invite a friend to join the family activities. In the Library Request this item to view in the Library's reading rooms using your library card. Further information on the Library's opening hours is available at: [JournalfortheEducationoftheGifted, 114](#) Social asynchrony may be characterized as the result of general asynchronous development, that is, the intellectual, social, emotional, physical and chronological ages of the child are quite different. Columbus Group, However, their backing away from achievement to preserve their social selves was typically temporary, and they, their parents, or a teacher recognized the dysfunction of their brief underachievement. Giftedness as a developmentalist sees it. Kids are jealous and try to beat them up and hurt them, just because they're nerdy. Jade's mother attributed Joan's response to Jade as resulting from peer pressure not to play with a younger child, and indeed this might be so; however, Jade's response also suggests that she is acting at a level of social development where the child still feels one must always be accepted as a play partner inclusion to be a friend.
