One or more items could not be added because you are not logged in. In *Letters from the Hive* Buchmann explores the fascinating role of bees in human culture and mythology, following the "honey hunters" of native cultures in Malaysia, the Himalayas, and the Australian Outback as they risk life and limb to locate a treasure as valuable as any gold. It's neat read that makes me want to keep a hive! Fly swiftly there and drain the honey!

Apr 16, Suzie Pierce rated it it was amazing. The hunters themselves are usually depicted either standing at the foot of a tree or cliff that harbors a bee nest or climbing long rope ladders to reach their prize. Before reading one might not even begin to know how swarming is caused, when bees produce the most honey, what gender of bee collects pollen and nectar, and exactly how bees communicate.

The information contained in this slim volume is interesting and the writing is excellent. Bees are often praised for their hard work, harmonious society, and mistakenly for their celibacy, bees have a link to our species that goes beyond biology.
