Although good leaders use all three styles, with one of them normally dominant, bad leaders tend to stick with one style, normally autocratic. More... The Knowledge Bank: So as you think about diversity and its effects in organizations during this tough economic time, recognize that the most robust practical value of diversity is that it challenges everyone in an organization.

They'll virtually always include involving followers in the goal, as well as At its best and there are decent autocratic leaders - see the box directly below autocratic leadership provides a stable and secure work environment and decisive, effective leadership. If you believe in yourself, they'll believe in you. This is normally used when you have part of the information, and your employees have other parts.

Another way of looking at leadership is to categorize it as either transactional or transformational. Can you incorporate into your own style? Even more to the point, collaborative decision-making can be excruciating.
