It was deeper than I thought it would be. I got pretty bored. *Fairy Tale Bride* skimmed a lot. It's hard to decide what to give this book, so I'm giving it a 3 since that's the average. The female protagonist, Miranda, was nothing more than window dressing for me. I actively disliked *Fairy Tale Bride* and didn't understand the heroine's attraction to him at all. Simon thinks anyone claiming happiness is putting up a facade and believes Miranda's claims of fairy tale love are laughable at best. I didn't really get attached to any of the characters, the heroine was stubborn in all the least helpful ways. Unnerving... Plus, I hate that she blames her for lying but it's totally fine that she just wants you.
